### About this piece

An **Arts and Crafts copper patinated brass bevelled mirror c.1900**, bordered with hand repoussé fruit and floral decoration in low relief. The rectangular frame is fitted with a bevel-edged mirror plate and mounted with a pair of brass candle sconces that swivel on simple forged brackets. The surface retains its original hammered texture with an even brown patination, characteristic of early twentieth-century brass work from the *Arts and Crafts* movement (1880–1910).
