About this piece

An extremely rare set of twelve Glasgow school oak dining chairs which have been totally restored in our workshops and professionally reupholstered in a quality green leather. Because the main upholstery work has been carried out, to change the green leather would be a simple task of removing the studs and applying a new covering with new studs. I also have another single chair available if required. Circa 1900. H 45". x W 17". x D 16 1/2"
