About this piece

A tall set of A&C cast iron gates

in the Glasgow style with split heart details to the base and stylized floral work above. They have a female concave cup under each side in the lower left and right hand corners which allows the gates to swivel.

The male convex cup will need to be made to fit the females and then fixed into the ground so the gates can sit and swivel. Maker **Gebr. Vincent Schiedam** (Netherlands),

Circa 1900.
